NEW MEXICO BOY ENGINEER  
ON TRAIN CARRYING SUPPLIES UP TO FIRING LINE

(Continued from Page 1)

Mud is knee-deep. The German aeroplanes keep us dodging them. They try to drop bombs on the track and then come down on top of the tanks and use their machine guns on us. We just stop and get under the tank on top of the axle and stay there until they leave. We have learned a new dance. It is the dugout dip and the trench glide, and the aeroplanes have us doing this on moonlight nights.

I am running a big wheel balance compound here, and we are working under the French book of rules—we have no air brakes. It puts a fellow up against it with no air to stop with. You will be surprised to know that we are just getting along fine and have no trouble. Everything is "Safety First." We take it easy and get the ammunition and supplies up to the front.

The 13th Engineers were the first American Troops of Uncle Sam's to work in active service and the first under shell fire, and we bought the biggest amount in the second issue of the Liberty Loan Bonds than any other regiment, so you can see that we are doing our bit.

I haven't seen a show since I left Chicago. We would like to see a five cent moving picture show. I guess there are shows in Paris but we can't get enough money ahead to take that place in as we can only get a three-day leave and it takes a day and night to get there and back, and even if we went we would not have much time to see anything.

I have no idea when I will get to see the United States again. We will be the last of the American troops to get to leave when this war is over and we will have to stay and haul the troops back and the supplies, and it will take three or four months to do that. If I am back within six months after peace is declared, I will be happy. I have run out of paper. Love from,  
Your Brother,  
Frank.

## THE SIXTH TRUMPET

Investigating prophecy in the book of Revelation we continue the events following the sounding of the Sixth Trumpet, at the Christian church Sunday evening. This brings us down to our own age again. "I Press On" is the subject for the morning hour of worship. Bible school at 9:45. You are most cordially invited to attend all these services.

Norris J. Reasoner, Minister.

## A YUCCA CHOPPER WITH A GRAVITY FEED A SUCCESS

Wm. G. Blodgett, a noted engineer-machinist of Michigan, decided that Sunshine State was a proper place to rear his fine family and on the way here he observed vast areas of yucca plants, which he was told made "the best cattle feed in the world" when properly cut up. His analytical mind put two and two together and he almost exclaimed aloud: "I'll cut it."

It fortunately happened that Mrs. Blodgett had formerly spent some few months in Deming, as the guest of her sister, Mrs. F. C. Peterson, and with the memory of our delightful climate in mind the family came directly here where Mr. Blodgett's ideas were more than confirmed regarding the value of yucca plants for cattle feed and the desirability of making a simple, absolutely fool-proof and practically indestructible machine that any ranch employee could run and that could convert twenty to thirty tons per day of useless yucca plants into cattle feed, pronounced by government chemists more valuable than timothy hay, at a cost of less than \$1.00 per ton.

The engineer went to F. C. Peterson's scrap heap and in less than one week's time had perfected a machine that, by simple, adjustable blades, can cut any size yuccas into any size pieces desired, for cattle, sheep or goats.

Only four castings for the machines are required, so that they can be turned out in large quantities on short notice.

The machine has a gravity feed, so that no power to hold the plant against the cutters, and everything is so simple and yet so strongly built that any boy who can lift up a piece of yucca can turn out from thirty to forty tons per day of perfectly chopped feed.

The whole machine and engine, all mounted on channel steel frame, can be transported on any light wagon and will be shipped fully assembled, and ready to run. The machine, with the frame weighs a little over 350 pounds and any engine can be mounted on the frame.

Cowmen pronounce it perfection itself.

F. C. Peterson & Co., the well known carriage manufacturers and blacksmiths of Deming, have started to make the machine, which Mr. Blodgett has appropriately named the "Ideal," as it is very simple, very solid, perfect in action and can be sold for only \$145.00 exclusive of the engine.

The demonstration machine is being run with a five-horse electric motor and three-inch belt.—Deming Graphic

## ANOTHER MINE MAKING GOOD

The Interstate Investment Co. is in receipt of the following telegram which will be of interest to many who invested in this mining stock:

Okla. City, Okla., Jan. 11th.  
"We have leased the rich Hubbard mine and mill located between Peacock and Badger mines and will operate on twenty per cent basis. Expect to have Betsy Jane and Hubbard Mills operating in few weeks. Stock advances to fifty cents Jan. 15. Now selling at thirty-five cents."

Miami Natl Lead & Zinc Co.  
Phil Shahan, J. F. Jackson, Benj. Conger, C. D. Schrader, C. H. Cooper, G. W. Jobe and others in this city already own considerable stock in this company and were benefited by the rise in price of stock.

## Report of the Condition of No. 10594

### THE AMERICAN NATIONAL BANK at Tucumcari

in the state of New Mexico, at the close of business on Dec. 31, 1917.

## MISSIONARY SOCIETY PROGRAM

The Missionary Society of the Center Street church will meet on Jan. 25 at the Parsonage and the following program will be given:

General Topic—Stewardship.  
Bible Lesson—Mrs. Duval.  
Plans for 1918—General plans—Mrs. Elkins.  
Membership campaign—Mrs. Caldwell.  
Financial Plan—Mrs. Sandusky.  
Piano Solo—Mrs. Stanfill.  
Reading—How Miss Malvina Became a Tither—Mrs. Keeler.  
Vocal Solo—Mrs. Hittson.  
Discussion, "Shall We Have a Mission Study Class?"—Mrs. Stevenson.

## LAST WILL AND TESTAMENT OF J. D. CUTLIP, Deceased.

State of New Mexico,  
County of Quay.  
Office of the Probate Clerk, County of Quay, New Mexico

To All Whom it May Concern,

Greeting:  
You are hereby notified that the Fourth day of March, A. D. 1918, has been fixed by the Honorable Probate Court, in and for the County and State aforesaid, as the day to prove the last will and testament of said J. D. Cutlip, deceased.

In Testimony Whereof, I have hereunto set my hand and affixed the seal of the Probate Court this 15th day of January, A. D. 1918.

(Seal) T. N. LAWSON,  
Clerk of the Probate Court.  
Harry H. McElroy,  
Attorney, Tucumcari, N. M. 1-17-18

## OZARK TRAILS PRESS BULLETIN

The Ozark Trails from St. Louis to Las Vegas will be marked early in the coming season. The management has been waiting on the completion of the road.

State and National money, to the amount of one hundred thousand dollars has been appropriated to finish the Ozark Trails across Quay county in New Mexico of which Tucumcari is the county seat.

The Kansas City Star, in an able editorial, emphasizes the importance of road building not being neglected during the war.

With good hard roads criss-crossing the United States, troops in large bodies, including military equipment and supplies can be, when needed, moved more rapidly than on railroads. There are enough automobiles and motor trucks in any average county to load in and transport, at one time, all male citizens of the county, of military age, including equipment. Making roads is military preparedness.

Mr. R. H. Everts of the Ozark Trails Association is now logging the road from Saint Louis to Las Vegas and preparing the Route Book of the Ozark Trails, for 1918, to be published in April.

## VON PAPPEN IN ARGENTINA

Buenos Aires, Jan. 16.—The foreign office announces that it will receive the visiting Mexican delegation but only in the capacity of distinguished tourists. Two American detectives arrived here recently and are cooperating with the police in a search for Capt. Von Pappen, former military attaché of the German Embassy at Washington.

## Bevo

COLD WEATHER NOTICE

Keep in mind the fact that Bevo, being a soft drink, will freeze at 32° Fahrenheit—just like any other non-alcoholic beverage. Be careful about this, as freezing affects the rich fullness of that delightful Bevo flavor which goes so particularly well with a meal or a bite to eat. If Bevo were merely a summer beverage this warning might not be so timely—but, as all who drink it know—

**Bevo is an all-year-'round drink**

Everybody enjoys it for more than just its thirst-quenching qualities—the pleasure it gives comes from its flavor, purity and wholesomeness. The most noticeable—the enjoyment of these qualities is independent of time or season.

To get full pleasure out of Dutch lunches, Welsh rarebits, oysters, clams, lobsters, cheese and many other such delicious edibles, Bevo should be included.

You will find Bevo at inns, cafeterias, restaurants, groceries, department and drug stores, soda fountains, dining cars, steamships, canteens, soldiers' homes, navy, and other places where refreshing soft drink beverages are sold.

Your grocer will supply you by the case. Demand the genuine—have the bottle opened in front of you—see that the seal is unbroken, covering the crown top and see that the crown top bears the Fox.

Bevo is sold in bottles only, and is bottled exclusively by

Had the Grip Three Weeks.  
With January comes grippe. Lingering colds seem to settle in the system, causing one to ache all over, feel feverish and chilly, tired, heavy and drooping. Mrs. Lizzie Tyles, Henderson, Ky., writes: "My daughter had grippe for three weeks. I gave her Foley's Honey and Tar and now she is all right." For sale by Sands-Dorsey Drug Co.

Don't Cough Until Weak  
Foley's Honey and Tar  
HELPS COUGHS QUICKLY  
FOLEY'S HONEY AND TAR takes right hold of an obstinate cough and gives quick relief.  
It puts a healing coating on the inflamed membranes that line the throat and air passages. It stops the tickling, loosens and raises phlegm easily. It is just splendid for bronchial and la grippe coughs, and tight, wheezy breathing.  
Mrs. W. S. Bailey, Lancaster, Ky., coughed almost continuously day and night, until she took Foley's Honey and Tar. After taking half a bottle, her cough began to slow up, and seven bottles entirely cured her cough.
